DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3, 6-8, 10, and 11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Claims 1-3, 6, 8, 10, and 11 are allowable because of the apparatus with a blade support structure for limiting motion of the blade in a longitudinal direction, a means for adjusting the position of the blade support structure in the longitudinal direction, and that the longitudinal direction of the blade motion and the adjusting position of the blade support structure are the same direction as set forth in the claims. None of the prior art cited discloses an apparatus that incorporates the use of a blade support structure for limiting motion of the blade in a longitudinal direction, a means for adjusting the position of the blade support structure in the longitudinal direction, and that the longitudinal direction of the blade motion and the adjusting position of the blade support structure. Claim 7 is allowable because of the apparatus with top of the stop block is flush with the surface of the worktable. None of the prior art cited discloses an apparatus that incorporates the use of a stop block that is flush with the surface of the worktable. Therefore, in view of what has been stated above, the claims are allowable over the art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
